MDG ANNOUNCES UNITED STATES EXPANSION

FOR IMMEDIATE RELEASE

SPARWOOD, BC. (July 17, 2017)— MDG is pleased to announce that with our expansion into the United States, we are now an international company. Headquartering in Charlotte, North Carolina, MDG Construction Services Ltd. is a wholly-owned subsidiary of MDG Contracting Services Inc. and provides Construction Management, General Contractor and Design-Build construction services throughout Southeastern United States. MDG's Roofing Services and Maintenance division will take advantage Rick Kiger, of our United States leadership team's experience as well as provide employment opportunities in the markets we serve.

MDG has a long history of working with First Nations communities in Canada. We have developed a business model that successfully provides inclusion and full circle impact to the First Nation communities we work in. We are proud to bring this philosophy to the United States and commit to work directly with First Nations and other Native American communities to maximize benefits from our construction projects.

We've assembled a comprehensive team of experienced American personnel for this venture:

*Rick Kiger, General Manager, VP of Operations
Robbie Boland, National Business Development and Operations Manager
Ron Thomas, Senior Construction Manager
John Bury, Corporate Controller
Tim Lucey, Capital Projects Manager
Steve Ramerth, National Service Manager*

Together, our US team has over 150 years of combined construction experience in addition to strong, established relationships in the United States construction industry.

About MDG

Since MDG's inception in 2008, we've grown into a diverse construction company committed to working in a transparent and cooperative capacity, providing exceptional customer service, value engineering and quality workmanship. Building a trusted network of partners in every region we've worked in, MDG offers full services in construction and has the skill and expertise to deliver project of any size from concept to completion. We are committed to adding value through innovative, cost-effective and functional solutions and creative in completing commercial, industrial, residential and civil/earthworks projects. We don't compromise on safety or quality and are committed to building sustainably.

A new way to build.
